Dear Children and Families,

WHOLE SCHOOL MATHS CHALLENGE

As a school, we are always trying to find new and exciting ways to deliver the curriculum, as well as getting families working together and as involved in their children's learning as possible.

Those of you who were at the school in 2012 will remember the enormous success of the *Show 100* challenge. This year, I am inviting you to take part in our new maths challenge for 2014 - there will be one for children in KS1 and a different challenge for children in KS2. The products/photos of the challenge will need to be returned to school by the end of this half term (**14th February 2014**) and there will be a prize for the most creative and innovative attempt in each Key Stage. The challenges are as follows:

Early Years Foundation Stage and Key Stage 1 (Reception, Years 1 and 2)

Just a Minute!

What can you do in a minute? Explore the weird, unusual and wonderful tasks you can complete in a minute. Take photos or bring in evidence of your achievements. Think outside the box!

Key Stage 2 (Years 3, 4, 5 and 6)

What's the Question?

Think of the most interesting and unusual mathematical question you can. What makes you wonder? Perhaps you could think of your favourite number and develop questions for this answer. We want to be fascinated!

Good luck and I look forward to seeing your efforts!

Miss M Baker
Maths Coordinator
