

Nursery Learning Web

Our Theme is Once Upon a Time

Communication and Literacy

We will be listening to and playing with sounds in topic-based activities and games, as well as in our phonics sessions. We will be continuing to develop our speaking skills in our daily activities and in our question and answer sessions.

Literacy

We will be using role play areas, storyboards and a selection of information and fiction books to listen to and recreate stories. We will also be using writing and drawing tools to continue to develop our mark-making and emergent writing skills, and to develop our understanding of print in the environment.

Personal, Social and Emotional Development

Through our daily activities, games and routines, we will be learning to work together and help each other and to continue to build relationships with old friends and new.

Maths

We will be using our topic resources to develop our counting, sorting skills and shape recognition skills. We will be beginning to explore simple addition and subtraction in games and songs.

Physical Development

We will be continuing to develop our skill in using small tools and mark-making tools in both outdoor and indoor areas. We will also be developing our large construction skills in collaborative tasks. In games and activities, we will be beginning to explore the effect that physical activity has on our bodies.

Understanding the World

We will be learning facts about the natural world and using our imagination to explore the imaginary worlds of fairy tales and traditional tales.

Expressive Arts and Design

We will be exploring and using a wide range of media and materials to create works of art based on our topic. We will also be using props and resources to support and enhance our imaginative play.
